

**Summary of the year 2005**

The year 2005 has been a year of innovation and new ideas. After the conclusion of the General Assembly, which was held in Rome from 15<sup>th</sup> till 17<sup>th</sup> April 2005, the webmasters equip, at the service of SIT for the past three years, in strict collaboration with Fr. Angelo Buccarello, President of the SIT, goes on thinking of and seeking every possible way to see that the site may respond every actual exigency, for the utmost sensitisation of its members and a response to the objectives of the SIT:

**"Persecution of the Christians"**

We have integrated it with an instrument, which looks fit and fully promising with regard to our activities: the **forum**.

We have made the access to the Forum easy, so that all may participate in it, without any difficulty.

**The forum is undoubtedly the central point of the new site.** We have conceived it in such a modality as it may be utilised in Italian, French, Spanish and English. This instrument, scarcely utilised so far, has an enormous potentiality for all of us.

We invite you to participate actively, to the end of knowing how to manage for a better organisation, for an improved activity pro liberation of today's slaves and for a future freer world. It is the matter of **formation** and **information** and it is good to share our own experiences, to the end of going ahead with concrete actions, which all of us hope for. We need each one's and everybody's collaboration; let us grow in solidarity so that our dream of a united SIT may come true.

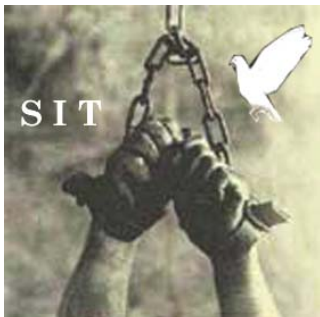

There is a scanty contribution to the forum for the time being, but we hope that it will become, one day, a meeting place appreciated by everyone for exchanges of ideas in search of freeing solutions.

We invite you to participate in it actively, knowing that the SIT is not the responsibility of a single person, but it is rather a coming together of persons who are animated by the same ideology of liberation.

We say all this to the end of sensitising ourselves and of **growing in the passion** for liberation. To be liberators, to work for the ransom of the persecuted Christians, of the oppressed (men, women, children, victims of eventual wickedness) demands commitment, sacrifices and even risks. We, therefore, are supposed to be well **motivated, animated and sensitised**. We do not intend to do B.B. (G. A, good actions) for our own personal satisfaction: we want to involve the utmost number of persons in this struggle, because we know that this is the will of God, who wants us to respect the dignity of every human person.

We are blessed with the work of several translators, who offer us a noteworthy service: felicitations to all of you! They allow us to publish the most important messages in four official languages of the SIT.

Hoping of hearing from you soon in the Forum! <http://Liberar.Info/forum>
